List any issues or concerns on the part of the Buyer: _____

Subject Property that will be Inspected

Per guidelines established by the North Carolina Home Inspector Licensure Board, Home Inspectors are Not to turn on any utility.

Therefore, 24 hours or more before the inspection is to occur, please have others turn on the electricity, water, gas and any other utilities related to the home inspection. Whoever does this should be prepared to deal with leaking and other circumstances that may occur when utilities have been turned off for a period of time. These issues should be resolved before the Home Inspector arrives to conduct the inspection.

Is the home presently "Winterized?" Yes _____ No _____

If so, any of the Winterized elements, such as, but not limited to: the absence of water will not be inspected if this has not been returned into normal operating service at least 24 hours prior to the home inspector's arrival.
